Hello Sir,

We have ECIs for our CARE operations last Friday, 9/18/20. As reported, they were able to complete three assigned locations. However, there are three leftover locations due to time constraints. For your reference, please find below our schedule last Friday.

CAZADOR			09/18/2020-FRIDAY:					
Assignment (CARE, CARE +, Posting)	Area: CD	Lead	Second	Radio #	Radio Call Name	Truck Plate #	Clean Harbors	Trainees
Posting CD1, CD13								
CARE + CD 13	CD 13							
CARE+ CD 01	CD 01							
CARE CD 13	CD 13	S. Shrestha	A. Landeros	41211	CARE 413	C83002L	BRANDY F	
CARE CD 04	CD 04	A. Nguyen	B. Dancel	40363	CARE 404	71222T2	NONE	
CARE CD 01	CD 01	B. Anguiano	P.Pedrosa	41165	CARE 101	19553Y2	NONE	

Regarding Monday & today's (9/21 & 9/23) CARE operations, there were no available ECIs to perform the health hazard assessment. However, our Solids teams performed the collection of trash and debris on those assigned locations. Unfortunately, even we planned well, there are emergencies and other priorities that our ECIs need to address and attend.

In case there will be no ECIs to perform the tasks, my proposed course of actions are:

1. CARE+ team will conduct the health hazard assessment from 7:00 AM to 10:15 AM;
2. The same CARE+ group will be assigned to service the CARE locations from 10:45 AM to 3:15 PM. However, the whole team will be allowed to work overtime in this scenario;
3. Distribute the assignments to other CARE teams and provide overtime to complete the tasks.

I am looking forward to hearing your feedback.

Sir, I did not discuss the above-cited proposals yet with my immediate supervisor.

Thank you.

Hi,

While I appreciate this notice.

I am concerned and curious about not having ECIs last Friday for 3 locations, no ECIs at all this Monday in our ABH Zone, then again none today.

What's the course of action to address the hazards at these sites? Does Clean Harbours handle or ECI come back separately or should I confer ECIs will be available before I reschedule?

Your feedback is appreciated.

Thanks,
